EASYDRAIN

EASYDRAIN è uno speciale coperchio per pozzetti monolitici realizzato in acciaio inox AISI 304. Dotato di un intelligente meccanismo di apertura e chiusura a leva basculante che permette il deflusso dei diversi materiali di scarto sia solidi che liquidi nel condotto di scarico del tombino, si richiude svolgendo la funzione di una valvola di ritegno evitando così qualsiasi intrusione indesiderata. E' stato progettato e realizzato con l'obiettivo di combattere alla fonte il sempre più grave problema della proliferazione della zanzara tigre. EASYDRAIN è una novità assoluta, efficace e funzionale grazie alla sua certificata capacità di scarico e di anti-intrusione di zanzare, scarafaggi o ratti è capace di evitare le maleodoranti esalazioni causate da ristagni di vario tipo.

EASYDRAIN

EASYDRAIN is a special cap for monolithic catch pit, it is made of stainless steel AISI 304 to ensure maximum performance and to avoid damages.
Equipped with an intelligent mechanism that allows the flow of different waste materials both solid and liquid to the exhaust pipe of the manhole, carrying also a function, that avoids any unwanted intrusion.
The easy and economical way to say stop to mosquitoes, cockroaches, rats and odors is here : choose EASYDRAIN and forget about them.
EASYDRAIN It's a completely new system, effective and functional thanks to its certified capacity to discharge wastes and able to avoid smelly fumes caused by stagnation of various kinds.

Leva basculante a chiusura meccanica
Self-stabilizing lever mechanical closure
